

JOB DESCRIPTION

Title of position	Sr. Business Analyst & SME
Contract type	Permanent
Department	Data Office PMO, Asia Pacific
Reporting to	Head of Data Office PMO, Asia Pacific
Job description date	23 rd February 2022
Position opening start	23 rd February 2022

Position Summary

Natixis is a French multinational financial services firm specialized in asset & wealth management, corporate & investment banking, insurance and payments, and a subsidiary of Groupe BPCE, the second-largest banking group in France. In APAC Data CoE, we build enterprise tech products to contribute to business growth and improve operational efficiency regionally as well as globally for Natixis CIB.

As a Sr. Business Analyst & SME you will work closely with a fully decentralized international team (spread across APAC) of Architects, Data Scientists, UX Engineers and Fintech partners liaising daily with business products owners, Investment Banking Front Office users and other supporting project stakeholders. You will bring in CIB product & system knowledge with strong focus on user experience and scalable architecture.

Main responsibilities and duties of the role

- Understand complex Investment Banking business needs and translate to a detailed technical requirement specification (BRD) for Developers
- Run detailed pre-project system behavior / business process discovery analyses
- Provide user input, anticipate, and make trade-offs and balance the business needs versus technical constraints
- Prepare client / staff journeys and user stories for agile delivery
- Running show & tell sessions (project / enhancement demonstrations)

Job Qualifications (education, years of experience and other soft skills)

- 5+ years of experience in Investment Banking or Asset Management as a Business Analyst or System / Process SME
- Detail oriented, analytical thinker
- Experience of writing Business Requirement Documents for IT teams
- Good communication skills, comfortable to discuss CIB products with Front Office team heads
- Team player, happy to extend help to team members to reach key milestones together
- Knowledge in CIB financial products would be a significant advantage
