

JOB DESCRIPTION

Title of position	QA - Software Tester
Contract type	Permanent
Department	D&T
Reporting to	Head of Development and DevOps APAC
Job description date	12 th January 2022
Position opening start	12 th January 2022

Position Summary

Natixis is a French multinational financial services firm specialized in asset & wealth management, corporate & investment banking, insurance and payments, and a subsidiary of Groupe BPCE, the second-largest banking group in France.

Based in Bangalore, you will have to oversee DevOps for the APAC platform. You will lead all the DevOps topics across the region and for all the Natixis APAC development teams including transversal, Data office and Global Market teams. You will be acting as the development pipeline referent and a coach.

Local reporting line: Head of Transversal Development

Functional reporting line: Head of DevOps in Head Office (Paris / France)

Main responsibilities and duties of the role

- Reviewing software requirements and preparing test scenarios.
- Executing tests on software usability.
- Analyzing test results, errors or bugs, and usability.
- Preparing reports on all aspects related to the software testing carried out and reporting to the Development teams and Product Owner.
- Interacting with Product Owners to understand product requirements.
- Providing feedback to Developers about the design and potential problems.

Technical skill requirements

- Experience in building scalable testing frameworks and tools to test enterprise-grade applications end-to-end
- Experience in automated test frameworks and tools like Postman
- Experience in automated web browser testing like WebDriver/Selenium
- Well versed with software quality assurance such as unitesting, documentation, etc.
- Good knowledge of at least one programming language like Java, Python or C#

Job Qualification (education, years of experience and other soft skills)

- Master's degree in Computer Science or Software Engineering
- Minimum 3 years in a similar role is required
- Excellent communication skills
- A first experience in Software development is a good plus.
- Highly autonomous and proactive
